Nathan9209: Ok.. my approach is business is buisness, friendship is friendship and should be kept separate

Nathan9209: I asusme you want the site databased with the warehouse?

Revised Web Sites Design
Feb 11, 1997

Qualitative Format: We shall maintain a series of free web sites (a total of 8-10). Each of these web sites will be protected with a different Age Verification System, and shall further contain click-through links to advertisers. Furthermore, each Free Site shall be linked back to our Premium Member's Site, henceforth tentatively referred to as the Cyber King Site. The Cyber King Site shall contain no banners, nor shall it be protected with an Age Verification System.

Web Sites Map:

Free Site Notes: Each Free Site is independent and will contain approximately 20 images. Each page will be updated approximately every 1-2 weeks until things are running smoothly, then the updates may be more frequent. Also, each Free Site will contain topic-specific content. All Free Sites will be protected by Age Verification Systems. Banners will be placed throughout. Each site will have at least one link to the main member site, Porn King.
